

## January 2022 Newsletter

### **Good to have Toby's group back . . .**

#### ***Toby Vaughn's group was back at Fairgrounds in November***

**Toby Vaughn** was able to hold his annual Thanksgiving morning tournament at our course in November and it was great to host it again

Toby booked nine foursomes at 7:30 a.m., and we set up a shotgun start so the 36 golfers were done playing in two hours.

We are able to host small events and are grateful to Toby for choosing Fairgrounds Golf Course for his special outing. If you are interested in staging a relatively small event, call the Pro Shop at 707-284-3520 and we can discuss details with you and your group and see what we can work out.

### **Happy New Year !!!**

**Kevin Belew plays golf at Fairgrounds more often than anyone we know. Kevin, a caddy at Mayacama, is one of a select group of golfers who purchased our annual card.**

## ***Card-holders make use of weekday special***

**Kevin Belew** plays a lot of golf at Fairgrounds GC, in just about any kind of weather. He says he has lost track of how often he plays, but we see him several times each week. He has definitely made his money (\$750) back.

He purchased our annual weekday card again this year, allowing him to play for free any time other than weekends and holidays. Unfortunately, the offer is only available for a few days around the Thanksgiving weekend, and this year 10 players joined up.

## ***Consider joining the Fairgrounds Golf Club . . .***

Our club – we can't call it a men's club because we do have two women, **Gloria Murray and Janice Chu**, on the roster -- plays just about every Saturday morning, although they sometimes travel to other courses.

The club offers four “majors”, and players accumulate points in those events as well as in regular Saturday play with the top point-getter named Player of the Year.

It's a fun group with lots of special “days.” Contact **Joe Hall**, [mightyjoehall@sbcglobal.net](mailto:mightyjoehall@sbcglobal.net), or **Greg Varley**, [gvarley@sonic.net](mailto:gvarley@sonic.net), for information.
