

## September Newsletter

***A new look in the Pro Shop, including a Hole-in-One Wall of Fame***

***We're back, better than ever . . .***

After being closed because of the Sonoma County Fair and horse racing for three weeks, it was good to get back . . . and good to see you back.

But while the golf course and driving range were on hold, that wasn't the case for our maintenance crew led by **Jason Cavanaugh**, and **Evan Crowder**, Director of Operations for the Tayman Park Golf Group.

With Evan at work, our shop underwent a major upgrade, in general appearance but also with new additions like a larger choice of golf shoes, women's clothing, used golf bags (\$10), used golf sets and bags, discounted putter and head covers, and an increase in the number of used golf clubs. We discarded our \$5 barrel, replacing it with a huge selection of used clubs at a variety of prices.

Next time you're here, check out what's new the pro shop, and let us know what you think. We appreciate your thoughts and suggestions.

**Although having to operate on a reduced schedule because of the racing, our crew was able to aerate greens, sand tee areas, add bunker sand and work on a number of smaller on-course projects.**

## ***Do we have your email ???***

We have email addresses for a lot of our golfers, but not as many as we would like. Why does that matter?

Because we send occasional notices to our golfers about special sales or special days, like the “Free Golf Day” we offered Wednesday, Aug. 21. If we had your email, you would have known about it.

So, if you’d like to get the word on special offers, next time you’re at the course, give us your email . . . you can also do it on our website, *fairgroundsgolfcourse.com*

## ***Short putts . . .***

- We like you using our practice green, which we think is the best in the area. Be sure to check in at the Pro Shop and read the rules, which include a 30-minute time limit and a 5-ball limit.
- We have three electric golf carts, and if you’d like to use one, it’s a good idea to call ahead and we can reserve one for you. Call the Pro Shop, 707-284-3520.
- If you’re playing in a group or by yourself, and not playing all that fast for any number of reasons, and notice a group behind you, consider “waving them up.”
- If you take a divot or leave a ball mark on the green, we would appreciate it if you could take a moment to repair it.
